TCM-NC8100BU

Bed Yard Calling Unit

3-button bedside call station with patient handset

Call **Assistance** **Code Blue** | **Handset bundled**

3 Buttons	Handset	Code Blue	Presence	Wired	85×85 mm
Call · Assist · Code	50 cm coiled cord	Top priority	Reset & SLA	Room controller	10 mm, wall

DESCRIPTION

The **TCM-NC8100BU** Bed Yard Calling Unit is the bedside call station of the TCM-NC8100 IP nurse call series. Three colour-coded buttons (Call, Assistance and Code Blue) and a patient handset on a coiled cable let a call be placed without leaving the bed.

Hard-wired to the room controller, it reports each call to the TCM-BGM9000Pro nurse call server and lights the corridor lamp in the matching colour. Staff presence clears the call and logs the response time for SLA / KPI reports.

FEATURE

- 3 colour-coded buttons: Call, Assistance, Code Blue
- Patient handset on a 50 cm coiled cord, bundled
- Code Blue has the highest call priority
- Assistance: staff call a colleague to the bed
- Matching corridor light colour guides staff
- Staff presence clears the call, logs response time
- Hard-wired: no batteries, no radio link
- Slim 85 × 85 × 10 mm wall-mounted panel
