IP PBX & IP PHONE · OPERATOR HEADSET

HD500HS

Operator Headset Phone with RJ9 Interface

An RJ9 headset phone built for long hours on the line. Clear call audio, a noise-cancelling microphone and soft ear cushions that stay comfortable all day long.

RJ9 4P4C | HD Wideband | Mic Noise-cancelling | Boom 330°

HD500HS · front view

KEY FEATURES

Wideband Audio
More natural, clearer call audio that doesn't break up, for better conversations with customers.

Noise-Cancelling Microphone
Reduces background noise, such as chatter around the office.

Ergonomic Design
Built for all-day wear, with soft protein leather ear cushions.

Flexible 330° Boom
The microphone boom rotates up to 330° to set the mic position.

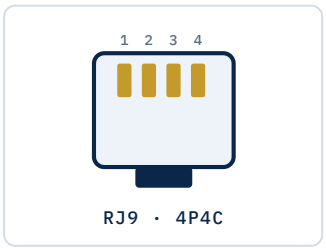

Professional Quality
High-definition sound, so every part of the conversation comes through clearly.
