ALARM SIGNALLING · LED

TCM-WC24R

LED Beacon Flashing Light

A bright visual warning for alarms and equipment status, in steady or flashing mode.

11 W LED | **IP65** | **12 / 24 VDC**

11 W	LED	IP65	150 / min	12/24 VDC
Power	Lamp type	Protection	Flash rate	220 VAC optional

DESCRIPTION

The TCM-WC24R is a compact LED beacon that gives a clear visual warning wherever sound alone is not enough. It runs in steady or flashing mode at 150 flashes per minute and draws just 11 W from a 12 V or 24 V DC supply, with a 220 VAC version available as an option. The IP65-rated ABS housing and protective cover suit both indoor and outdoor installations, and the lens comes in four colours so different alarms or equipment states can be told apart at a glance.

FEATURE

- Bright 11 W LED light source
- Steady or flashing mode, 150 flashes/min
- 12V / 24V DC, 220 VAC optional
- IP65 ABS housing with protective cover
- Red, yellow, blue or green lens
- Compact flanged base for surface mounting

SPECIFICATION

MODEL	TCM-WC24R
Model Name	Beacon Flashing Light
Power	11 W
Lamp Type	LED
