ANALOG PA · CEILING SPEAKER

# TCM-C605A

## 6 Watt Analog Ceiling Speaker

Paging and background music for offices, hotels and retail.

70V / 100V | 6 Watt | 5" full range | Spring clamps

**5" driver** Full range
**6 Watt** Power Out
**70 / 100V** Line voltage
**90 dB** Sensitivity
**Built-in** Transformer
**Flush** Spring clamps

## DESCRIPTION

The TCM-C605A is a 5-inch analog ceiling speaker for professional sound systems. It suits background music and paging in offices, corridors, hotels and retail stores, and its in-ceiling design keeps rooms looking clean without using any floor space. A built-in 70V/100V matching transformer lets many speakers run in parallel on one long cable run without significant loss of audio quality, while high sensitivity keeps it loud and effective at low power. The spring flush-mount design makes installation quick: cut a ceiling hole to size and push the speaker in.

## FEATURE

- 5-inch full-range driver
- Built-in 70V / 100V matching transformer
- Many speakers on one long cable run
- Power output 6 W
- High sensitivity, 90 dB (1W/1m)
- Spring flush mount for quick installation
- Clean in-ceiling look, no floor space used

## SPECIFICATION

| MODEL | TCM-C605A | | |
|---|---|---|---|
| **Driver** | 5" full range | **Power Output** | 6 Watt |
| **Line Voltage** | 70V / 100V (high impedance) | **Transformer** | Built-in, removable for 8 Ω use |
| **Sensitivity** | 90 dB max (1W/1m) | **Mounting** | In-ceiling, spring flush mount |
| **Impedance** | 100V: 1.7 kΩ · 70V: 830 Ω (6 W)<br>8 Ω without transformer | **Freq. Response** | 100 Hz – 18 kHz (−20 dB) |
| **Cut-out Hole** | Ø 160 mm | **Dimension** | Ø 170 × 77 mm |
| **Material** | ABS frame, metal grille | **Color** | White |
| **Net Weight** | 470 g | **Use** | Paging & background music |

## APPLICATION

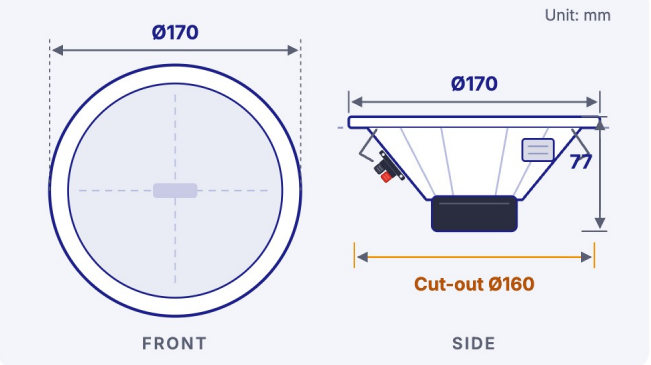

**Offices**
Staff paging and background music in lobbies and corridors

**Hotels**
Announcements and ambient music in corridors

**Retail & showrooms**
Even background music across the store

**Public areas**
Waiting rooms needing even, moderate sound coverage
